

# Adding Float Cards to Mobile Wallets

Add any Float Card to your phone with Apple or Google Wallets for effortless business spending wherever you are!

To add your new Float card to your mobile wallet, please follow the instructions for the appropriate wallet in the links below:

1. [Apple Wallet](#)
2. [Google Wallet](#)

Some things to consider when adding cards to your mobile wallet:

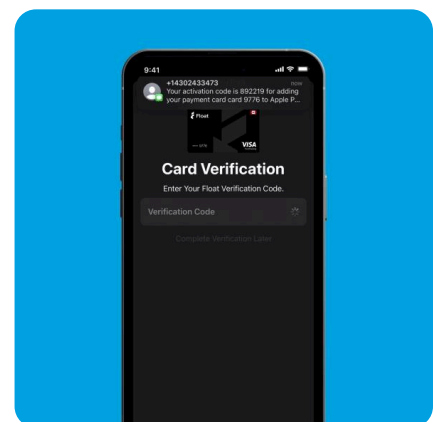

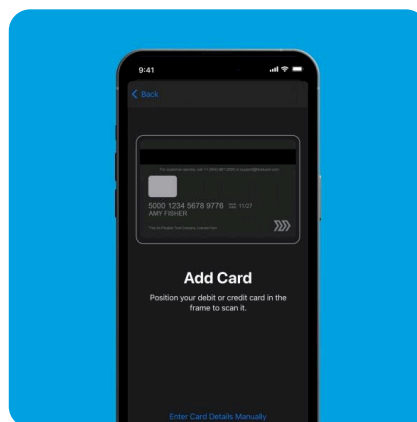

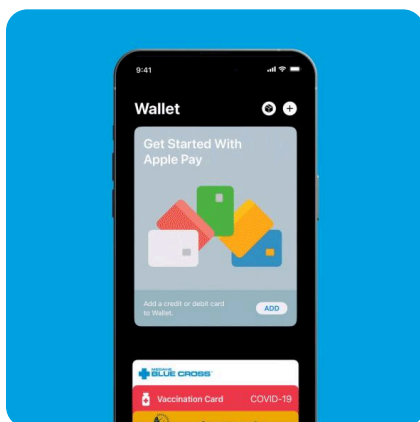

- If you are re-adding a previously-added card to your Apple wallet, on the "Add +" screen choose "Debit or Credit Card" instead of "Previous Cards"
- Cards can only be added directly from the wallet app, not from Float or any third-party app

## Adding a physical card to a mobile wallet

Please ensure you follow the instructions for adding a card to your phone's mobile wallet (Apple or Google) in the links above. The instructions below are steps to follow once you reach the point of adding your physical card by taking a picture of it.

### How to add your physical card to your mobile wallet:

1. Tap or hold your card close to your phone (Apple only) to add it, or take a picture of the back of your physical card (Apple & Google)
2. You will be prompted for additional authentication to add the card. Follow the prompts on your phone to add your card

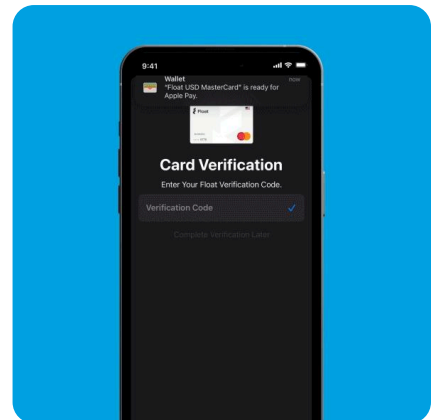

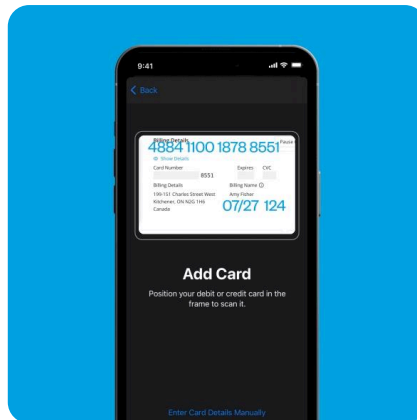

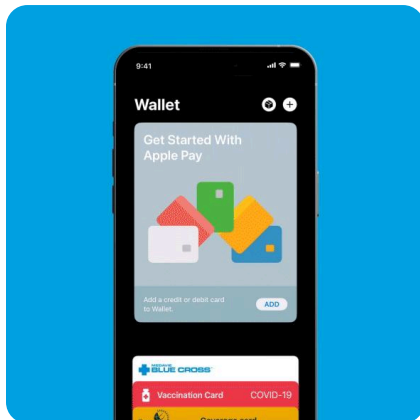

## Adding a virtual card to a mobile wallet

The instructions below are steps to follow once you reach the point of adding your virtual card to your mobile wallet by taking a photo.

How to add your virtual card to your mobile wallet:

1. Login to Float > Cards > select the card you want to add
2. Click "Show Details"
3. Take a picture of the card details to add it to your wallet
4. You will be prompted for additional authentication to add the card. Follow the prompts on your phone to add your card

When adding your Float card to a mobile wallet, the wallet provider may place a minimal charge on your card. This charge will be reversed and appear as a \$0 transaction in your Float account, so no receipt or transaction categorization is needed!

Your Float transaction at Google for **\$2.00 CAD** on **Jul 26 2023** was successful!

## Is there a 'tap limit' for my digital wallet Float cards?

Digital wallets and physical tap cards have transaction limits for in-person payments.

**CAD Digital Wallet Cards:** Tap payments are limited to **CAD \$250** per transaction, both in Canada and abroad.

**USD Digital Wallet Cards:** While there is no specific tap limit, transactions over **USD \$100** made in the US will require a merchant signature at checkout.
